Erjol Tingo, Consumer Care Team Lead

BASED IN ORLANDO,
FLORIDA

9 YEARS OF INDUSTRY
EXPERIENCE

ANCILLARY CARE
SERVICES DIVISION

MEMORABLE EXPERIENCE

My most memorable experience at Careworks has been helping an injured employee since 2015, ensuring they receive their necessary DME. I have formed a strong bond with them and even as my career advanced, I choose to continue overseeing his file due to our meaningful relationship.

Being part of this puzzle—connecting injured employees with essential needs—brings me immense satisfaction. When injured employees express their gratitude for my assistance, it reinforces the impact we are making in their lives.

POWER OF CHOICE

I utilize the power of choice to foster strong communications between the injured employees and the providers we select to provide care. I always look for opportunities to enhance the quality of care and injured employee satisfaction.

“I love the impact we make on injured employees’ lives and their recovery for a better quality of life or the chance to return to work.”
